REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the specific limitations of " ...a first ridge shaped layer on the side closest to said active layer and having a higher bandgap than said first cladding layer, an aluminum composition ratio X_1 of said first ridge-shaped layer is $0.60 < X_1 < 0.70$.", in the combination as claimed in claims 1 and 15.
2. Miyake discloses: a substrate (2) ([0009]); a first conductive type first cladding layer (4) formed on said substrate ([0009]); an active layer (5) formed on said first cladding layer ([0009]); a second conductive type second cladding layer (8,9) formed on said active layer, a part thereof having a ridge-shaped portion as a current narrowing structure ([0009]). Miyake does not disclose: first ridge shaped layer and second ridge shaped layer are a layer with a relatively high aluminum concentration ratio and a layer with a relatively low aluminum composition ratio, respectively; said ridge shaped portion of said second cladding layer includes a first ridge shaped layer on the side close to said active layer and having a higher bandgap than said first cladding layer and a second ridge shaped layer on the side distant from the active layer and having a low bandgap; composition ratio X_1 of said first ridge shaped layer is between 0.6 and 0.7, and an aluminum composition ratio of X_2 of said second ridge shaped layer is $X_2 \leq X_1$.

Art Unit: 2828

3. Yabusaki et al. disclose: first ridge shaped layer (5) with higher aluminum concentration than second ridge shaped layer (30) (Figure 6, [0041]-[0044]).

Yabusaki et al. do not disclose the claimed aluminum composition.

4. However the prior art of record fails to teach or suggest: "...a first ridge shaped layer on the side closest to said active layer and having a higher bandgap than said first cladding layer, an aluminum composition ratio X_1 of said first ridge-shaped layer is $0.60 < X_1 < 0.70$."

5. The limitations stated above are not anticipated or made obvious by the prior art of record in the examiner's opinion.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Xinning(Tom) Niu whose telephone number is 571-270-1437. The examiner can normally be reached on M-T, 7:30-5:00 EST, Alternate Fridays 7:30-4:00 ES.
